### WEATHER CONDITIONS & TEMPERATURES

Arctic summer is absolutely beautiful. When our season starts in July, the average daily temperature is around 15° Celsius (59°F). These types of temperatures continue throughout most of August until Autumn arrives.

September is a month of varied and rapidly changing weather. Temperatures start dropping and the first frost occurs, marking the start of the most colourful season when foliage turns shades of orange, red and gold. Average highs and lows in September are between 9°C and 3°C, respectively (equal to 48 and 37 degrees Fahrenheit).

No matter the month of your trip please plan to pack clothes that can be layered. Layering your clothes will greatly increase your ability to stay warm during your excursions.

**THIS PACKING LIST WAS NOT DESIGNED TO COVER ALL PERSONAL ITEMS YOU MAY NEED. PLEASE ENSURE YOU PACK THE ITEMS/CLOTHING REQUIRED TO KEEP YOU COMFORTABLE.**

# RAIN GEAR

---

## ARCTIC SAFARI & ARCTIC DISCOVERY DEPARTURES

You will need to bring your own rain gear and rubber boots as your trip starts prior to access to our lodge gear.

### RAIN GEAR SIZING

Our rain gear and rubber boots are designed to fit guests from child to adult. Boot sizes larger than a men's size 13 or a very small child are considered to be custom sizes that we do not provide.

Additionally guests over 6'4" should bring their own gear as we may not have clothing sizes to fit.

## LUGGAGE

---
